

The HeliosHandle can be screwed onto the Helios Tube so that it can be held and aimed at people or objects when filming. It also has a BabyPin attached so that it can be mounted.

**NOTE:**

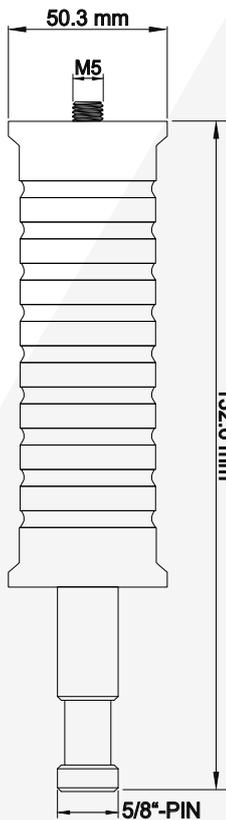

It is designed only for Helios Tube (FP2), for longer tubes the leverage could be too high for the integrated thread.

## SPECIFICATIONS

Order Code	FP2-HND
Outer diameter	Ø 21 mm / Ø 0.83"
Thread	M5
Weight	PowerCON TRUE1
Dimensions (L x Ø)	175 mm x Ø 42.5 mm / 6.9" x Ø 1.67"

All specifications provided are typical values and maybe subject to change without prior notice.
